## Family Sessions

~Single Family Session

~Extended Family Session

How old is your family portrait? It's time to update it whether it be at your home or a park or a fun place you go to together. This is a session every family needs to do! I love being able to capture those unplanned moments that happen within a family--the reactions to an inside joke, little pranks, or the undeniable love that is shared. Can I take a photo where everyone is posed, smiling and looking straight at the camera--sure. But often times those special moments that tell your story are the most treasured images. I strive to capture the beauty of the connection between you and your loved ones in a candid way. These everyday moments only last a split second, but it is those moments that tell your story. I love capturing genuine love & emotion, laughs, snuggles, and all the moments in between...the details you will want to remember for a lifetime. And I love capturing them along with sunlight, wind, and whatever natural elements we can incorporate to make your images truly beautiful. I can help guide you as we go along from what outfits to wear to what setting will be most ideal for your family.

### Single Family Session

- ~Family sessions offered outdoors year round as weather permits
- ~Evening/afternoons--held an hour or two before sunset
- ~Includes immediate family
- ~Families over 6 people add \$15 per person

### Extended Family Session

I realize often times families like to gather grandparents, along with all the syblings and their families. If you are interested in getting extended family portraits, I have other packages for this. Just contact me and we can discuss different options for your family to choose from.
